

PROFILO PROFESSIONALE

Graduate in Pharmaceutical Chemistry and Technology, with practical experience gained in pharmacy and research. During my 7-month pharmacy internship, I developed skills in medication management, customer counseling, and prescription management. Later, during an 9-month internship and one year of extracurricular training in a laboratory focused on gene therapy and neurodegenerative diseases, I had the opportunity to work on innovative projects related to the treatment of complex diseases, delving into advanced laboratory techniques. I am looking for new professional challenges in the pharmaceutical and biotechnology fields, with a strong interest in research and innovation in advanced therapies.

ESPERIENZA LAVORATIVA

04/2025 - 03/2026

Research Fellow

Ospedale San Raffaele, Milano, Italia

Knowledge and application of Gene Therapy laboratory techniques

Development of knowledge in neurodegenerative diseases, in particular Parkinson's disease and Epilepsy

Development of technical skills (preparation of cryo-sections, Immunofluorescence on cells and tissue sections, Immunohistochemistry on brain sections, stereological counting using StereoInvestigator software, basic biochemistry techniques, basic cell biology techniques).

Collaboration with other researchers on interdisciplinary projects.

Designing and conducting experiments, including data collection and analysis.

Writing scientific articles for publication in international peer-reviewed journals.

ISTRUZIONE E FORMAZIONE

mar 2025

Laurea Magistrale A Ciclo Unico In Chimica E Tecnologie Farmaceutiche

Università degli studi di Ferrara, Ferrara, Italia

103/110

CAPACITÀ E COMPETENZE PERSONALI

Competenze
Comunicative

Excellent written and oral communication skills.

Experience in public speaking.

Excellent presentation skills to both large and small groups.

An effective team player who can contribute to group projects.

Effective at communicating via digital channels such as chat, messaging or email.

Ability to speak in public clearly and confidently.

Competenze Organizzative E Manageriali	Proven ability to adapt to different cultural and organisational contexts. Ability to multitask, work in dynamic environments and under pressure. Ability to work effectively both independently and as part of a team. Ability to quickly take on board new ideas and integrate them into existing plans.	
Capacità Correlate Al Lavoro	Identification of appropriate research methodologies to achieve the objectives. Dissemination of the results obtained through the publication of articles and participation in conferences. Graphical representation of quantitative results. Conducting field research and carrying out experiments aimed at observing the results. Evaluation of research results according to criteria of reliability, verifiability and sustainability.	
Competenze Digitali	Information processing: Utente autonomo Content creation: Utente base Problem solving: Utente autonomo	Communication: Utente base Safety: Utente autonomo
